

Memorandum of Agreement (MOA)
Between
Elmendorf Air Force Base/3rd Wing
And
United States Army Alaska (USARAK), Fort Richardson

SUBJECT: Fire Department Consolidation for Fort Richardson and Elmendorf Air Force Base Alaska

1. Reference.

- a. DODI 4000.19 Interservice and Intragovernmental Support, dated 9 Aug 95.
- b. AFI 25-201, Support Agreement Procedures, and AFI 25-201/PACAF Supplement 1.

2. Purpose. This Memorandum of Agreement (MOA) implements the decision to consolidate fire and emergency services between Fort Richardson (FRA) and Elmendorf Air Force Base (EAFB) Alaska. Further it defines roles and responsibilities for each agency to support development of an Interservice Support Agreement (ISA) between USARAK, FRA and 3rd Wing (3 WG), EAFB which addresses the consolidation of Fire & Emergency Services. The overall intent of this relationship is for EAFB to assume all fire protection and emergency services necessary at FRA on a reimbursable basis. The relationship includes the transfer of appropriate personnel authorizations and equipment necessary to provide these services.

3. Problem. Redundancy and duplication of effort exists in the current establishment of separate fire and emergency service organizations on two DOD installations that are adjoined. This situation has been studied by the Joint Interservice Regional Support Group (JIRSG) and found to be an excellent candidate for consolidation. Many facts and assumptions have been gathered to date and are now sufficient for a decision for implementation. When instituted the 3 WG will provide consolidated fire protection support and emergency services for Fort Richardson and Elmendorf AFB as a joint basing effort.

4. Scope. This agreement once implemented is limited to the fire and emergency service consolidation requirements between FRA and EAFB only. The specific provisions agreed to within the ISA will establish the level of support provided by the 3 WG and how personnel and equipment will be managed.

5. Understandings, agreements, support and resource needs.

a. The 3 WG will:

(1) Coordinate an interservice support agreement to identify reimbursable support and furnish cost/billing information.

(2) Designate a point of contact (POC) to coordinate activities to ensure timely exchange of information and to coordinate support efforts.

(3) Support personnel and equipment issues as they arise and incorporate procedures in the ISA.

SUBJECT: Fire Department Consolidation for Fort Richardson and Elmendorf Air Force Base Alaska

b. The 3 CES will:

(1) Provide a POC to represent the Fire & Emergency Services in coordination of the ISA.

(2) Keep the 3 WG and USARAK Defense Regional Interservice Support (DRIS) informed of any personnel, training, and equipment needs and provide funding data for applicable programs.

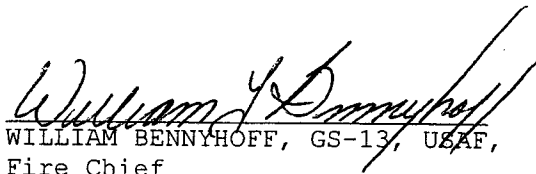

c. USARAK will:

(1) Provide facility and equipment information necessary to develop the ISA.

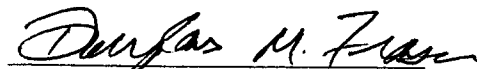

(2) Work with the 3 CES Fire Chief to coordinate unique fire & emergency services requirements.

(3) Designate a POC for Fire & Emergency Services requirements.

6. Effective Date. This agreement is effective on the date signed by the final signatory and is effective for a term of three years or until the Interservice Support Agreement is signed by the final approval authority (target date for ISA completion is 1 April 02). This agreement may be extended upon mutual consent. The parties will give each other written notice of intent to extend the term of the agreement at least 30 days before the expiration date. This agreement terminates once the ISA has been signed by both approving authorities. This agreement may be also terminated unilaterally upon 180 days written notification to the other party.

WILLIAM BENNYHOFF, GS-13, USAF,
Fire Chief
3rd CES, Elmendorf AFB
